FIRE ALARM TELEGRAPH.

JOHN F. KENNARD, SUPERINTENDENT. Salary $3000. Office, City Hall.

[Chosen by concurrent vote.]

[He has also the care of all the Public Bells and Clocks.]

Operators, Charles A. Stearns, Cyrus A. George, Granville S. Mendell, Chas. M. Chaplin. Salary, $5 per day. *Repairers*, George S. Thom, Adam McAfee, Uzziel Putnam, William H. Godfrey. Salary, $5 per day. *General Assistant*, Benj. F. Burchsted. $4 50 per day.

A constant watch is kept at the office, City Hall, night and day, by the operators. Each operator serves two alternate terms, of three hours each, as principal, and the same as assistant operator; so that twelve hours' service at the office, out of every twenty-four, is required from each operator. No operator is permitted to sleep during his watch, unless expressly relieved by some one else, and by consent of the Superintendent.

Each operator is accountable to the Superintendent for any mistakes that may occur at the office during his hours of duty.

An accurate account is kept of the time of giving each alarm, and of the station from which it originates, and all other necessary information.

Alarms are transmitted to the Central Office, from the Signal Stations or Boxes, by pulling a slide in the Box. The police officers, and one other person resident near each station, have keys to the Boxes.

The ringing of the bells and the tapping of the Boxes, *each* denotes the number of the Station from which the alarm originated: thus,—one blow, a pause, three blows, another pause, and two blows (1—3—2) indicates that the alarm came from Box No. 132.

Alarms are usually given in about half a minute from the time the Box is operated.

Directions to those who hold Signal-Keys.—If a fire is discovered in your vicinity, go to the nearest Box. Pull the slide all the way down once, and let go; wait at the Box, and direct the firemen to the fire. If you hear no reply on the bells, pull again; if no reply, go to the nearest Box. The police, upon hearing the bells, will spring their rattles and call the number of the Box. *Cautions.*—1. Be sure there is a fire before sounding the alarm. 2. Never sound the alarm for a fire seen at a distance. 3. Never open the Box except in case of fire. 4. Be sure your Box is locked before leaving it. 5. Never let the key go out of your possession unless called for by the Superintendent. 6. If you remove from your house or place of business, return the key to the Fire-Alarm Office. Don't leave it with the new tenant.

There are one hundred and fifty-six Signal Stations, located as follows:—

TILTON McFARLAND SAFE MANUFACTURING CO.

BURGLAR AND FIRE-PROOF SAFES,

Steel Vaults and Combination Bank Vaults.

Manufacturers of McFARLAND'S Patent BANK VAULTS and IRON SAFES of Improved Patterns.

From the Official Report of the Judge at the Eleventh Exhibition of the Massachusetts Charitable Mechanics' Association.

BURGLAR PROOF SAFE.—In his efforts to produce a Burglar-Proof Safe, the inventor has evidently made a long stride in the right direction. This Safe is no copy of those in general use, but is quite original; the outer shell or frame (with well-rounded corners) being one continuous band of iron and steel welded together at the ends; the front and back being secured to this shell in a remarkably strong and ingenious manner. All the bolting is done from the inside, and the points of the steel bolts are hardened.

Taken as a whole, it is the most formidable obstacle ever placed between the "burglar" and his coveted treasure. We recommend the award of a gold medal.

If convenient, persons requiring Trusses should call at our establishment, where they can have a suitable Truss carefully fitted by a competent and experienced person familiar with the anatomy of hernia. When a call in person is impracticable, a careful description should be sent, stating whether the rupture is on the right or left side; also the measure around the person two inches below the top of the hip-bone. "*1503.* CODMAN & SHURTLEFF, Boston, Mass. One Case Surgical Instruments and Atomizers.

"The Committee have no hesitation in awarding for this superb exhibition, the highest premium. * * * The various other instruments for Inhalation of Atomized Liquids, and for Local Anæsthesia, were all apparently faultless, both in design and workmanship. The exhibitors are regarded as more especially deserving of the highest token of merit for having produced nothing except of their own manufacture. *Gold Medal.*

ATLANTIC, DULUTH, AND PACIFIC LAKE COMPANY,
BUFFALO, N.Y., Oct. 9, 1871.

Messrs. COFFIN & WOODWARD.

Gentlemen,—The Steamers "*India*," "*China*," and "*Japan*," owned by this Company, and running between the ports on Lake Erie, and Duluth on Lake Superior, are each supplied with your Union Power Windlasses. These boats are very valuable, and are built expressly for the passenger business; and, in adopting your windlasses, I believed them to be the very best in use; my experience with them fully equals my expectations, and I feel confident that the windlass is the safest and best I have yet seen.

Yours truly,
E. T. EVANS, *Manager.*

BALTIMORE, Feb. 15, 1872.

Messrs. COFFIN & WOODWARD.

Gents,—The "Union Power Windlass," one of which you put on ship "*Humboldt*," of 1,018 tons, new measurement, with anchors weighing 3,600 and 3,700 lbs., and chains of 1⅞ inches and 1¾ inches, has been perfectly successful, and is satisfactory in all respects; indeed, I am, and the owners are, delighted with its practical working, and could ask nothing better. I am convinced of its superiority over any other windlass in use. I therefore freely give you my strongest indorsement of your windlass, as an invention of great importance to vessel-owners and seamen, and as combining the greatest strength, power, convenience, and *safety* ever yet reached in mechanism for working anchors, besides the added facilities of the best of Power Capstans.

JOHN DRUMMOND, *Master of Ship "Humboldt."*

BOSTON, Sept. 30, 1871.

Messrs. COFFIN & WOODWARD.

The Union Power Windlass furnished by you for the steamship "*Seminole*," of the Boston & Savannah Steamship line, gives excellent satisfaction. We believe it an invention truly valuable to the shipping interest of the country, and worthy of strong commendation.

S. H. MATHEWS, *Master of the Steamship "Seminole."*

BOSTON, Oct. 11, 1871.

Messrs. COFFIN & WOODWARD.

Having used your new Spring Traveller several voyages on the "*Willard G. Patton*," for the spanker boom, and having the Woodbury Spring Traveller for the other sheets, I have had a good opportunity to test its working. I have no hesitation in saying it works as well as any kind I have seen, and is superior to those kinds which given the travel of the springs only.

CAPT. R. R. BAKER, *Master of Schooner "Willard G. Patton."*

WASHINGTON
Life Insurance Co.
OF NEW YORK.

CHARTERED . . . . . 1860.

Cash Assets Exceed $3,000,000.

Annual Cash Dividends to Policy-Holders.

Policies and Dividends protected from Forfeiture.

The entire Profits are equitably divided among the Policy-Holders annually. Dividends are never forfeited (a feature peculiar to this Company), but may be paid to the Policy-Holder in Cash, or applied to increase the amount insured, from and after the Second Annual Payment, at the option of the holder.

It is the only Company which applies its dividends to hold good a policy which otherwise would be null and void from non-payment of Premium. If a Policy which has a dividend credited upon it lapses from non-payment of Premium, the Company will hold the Policy good for such proportion of a year (or years) as the Dividend bears to the annual Premium. For instance, a man paying a Premium of $365 annually on a Life-Policy of $10,000, and having Dividends of $288 standing to his credit, would be held insured for $10,000 for 288 days (9 months 18 days), after failing to pay his Premium! In some cases, the accumulated Dividends would keep a Policy in force several years.

Mutual Life Insurance Company,

SEARS BUILDING, WASHINGTON, COR. COURT STREET, BOSTON, MASS.

Organized as the Exponent of the Non-Forfeiture Law of Massachusetts.

It was the FIRST Company to proclaim the benefits of this Statute to the public; the first to make all its policies subject to this Statute, and which had "the honor of the first practical compliance with the Statute."

All the Profits are divided among the Policy-holders. Dividends paid annually on the Contribution Plan, commencing one year from date of the policy, and may be used as Cash in payment of premiums or to purchase additions to policy.

All its Policies are Non-Forfeitable after One Payment, or entitled to a paid-up Policy.

By reference to the Report of the Insurance Commissioner of Massachusetts, it will be seen that this Company is not surpassed by any other in the United States as to security to Policy-holders.

VOICE-BUILDING,

This is a new and verified Theory for the Mechanical Formation of the Voice.

Its principles are simple and definite; and, when it is reduced to practice, it is certain in its results. It restores debilitated throats, and so forms the voice as to completely protect the organs from injury, and prepare them for the discipline of Elocution.

BEST SYRINGE IN THE WORLD!

PHYSICIANS AND DRUGGISTS' NOTICE.

After two years' practical test, it is finally conceded by the prominent Physicians throughout the United States, that the Fountain Syringe is superior to all others, whether used as a DOUCHE FOR CATARRH, or for any other purpose where an enema is required. Be sure and send for a circular before purchasing any of the BULB SYRINGES. We refer by permission to Chas. E. Buckingham, M.D.; John P. Reynolds, M.D.; George Hayward, M.D. Dr. Winslow Lewis says: "During a professional life of nearly fifty years, he has used all the various syringes made here or abroad. All of them are more or less complicated, the valves soon getting out of order, and those without valves inconvenient. 'The Fountain Syringe' satisfactorily accomplishes all the desiderata required. It deserves all success and undoubtedly will command it." Manufactured by

JOHN BALLOU,

(Successor to WALTER BRYANT,) Manufacturer of the

New Englander Silver Medal Furnace with Ballou's Patent

Impermeable Wrought Iron Jacket Fire Pot,

the only *sure preventive of the escape of Carbonic Oxide Gas.*

These Fire Pots are straight, consequently will relieve themselves of dead ashes by shaking the grate and insuring a clear, bright fire at all times. I have introduced into the ash-pit a dust-damper, connected by a flue with the smoke collar. This removes the objection of dust while cleaning or shaking, and is a most valuable auxiliary to a perfect-working furnace. This, in addition, acts as a check-damper, and gives entire control of the fire. Its effectiveness as a check to the draft can be understood when the connection with the smoke-pipe is remembered. The air passing under the fire naturally seeks the outlet where there is no obstruction, illustrating our assertion that it is the only proper point to check the draft and stop combustion. All sizes, Brick and Portable, suited to the largest churches or the smallest dwellings. Old furnaces cleaned, repaired, and improved. Smoky chimneys cured, and all kinds of jobbing mason's work attended to. Contracts made for warming and ventilating public buildings in all sections of the country. Send for Circular. **J. MANUFACTURER OF THE

RANDALL SKELETON GRATE BAR,

PATENTED FEBRUARY 9th, 1869.

TESTIMONIALS.

MILFORD, March 12, 1870.

A. O. CORBETT. Dear Sir, — I have used the Randall Patent Grate Bar nearly a year, and they are the best I ever used. They work admirably.

R. C. HUSSEY.

BOSTON, March 26, 1870.

Having used the Randall Skeleton Bars, in connection with the three large Steam Boilers attached to the St. James Hotel for nearly two years, I do not hesitate to recommend them, especially for durability and also for general excellence for the purpose designed.

M. M. BALLOU, Prop. St. James Hotel.

BOSTON, Dec. 10, 1869.

A. O. CORBETT. Sir, — I have been using the Randall Grate Bars in one Furnace, on board steamer Star of the East, since April 15, 1868. I find them the best I have ever used. They give better draught, and burn the coal up cleaner, and leave less ashes and clinkers, than any grate I ever used.

L. S. DAVIS, Chief Eng'r Str. Star of the East.

WORCESTER, Jan. 27, 1870.

A. O. CORBETT. Dear Sir, — We have given your Grate Bar a trial for the last three months, and it has given perfect satisfaction. We have given it some severe tests with leather chips, which make the hottest fire. Yours truly,

D. G. RAWSON & CO.

BOSTON, March 3, 1870.

A. O. CORBETT. Dear Sir, — We have been using a set of the Randall Skeleton Grate Bars seventeen months. They have not warped in the least, and are as good as new. We cheerfully give you this testimonial, in answer to your inquiry.

C. WRIGHT & CO.

BOSTON, April, 1871.

A. O. CORBETT Dear Sir, — The set of Randall Skeleton Grate Bars put into one Furnace on board this vessel are yet all right. They have been in constant use since Sept., 1869. You are at liberty to refer to me to any one inquiring about them. Yours respectfully,

A. J. SAVAGE, Chief Eng'r Steamship Geo. Appold, Baltimore and Norfolk Line.

BOSTON, April 7, 1871.

A. O. CORBETT. Dear Sir, — In answer to your inquiry about the Randall Skeleton Grate Bars, put in here in Dec. last, I state with pleasure, that, being determined to test them thoroughly, I have kept an accurate account of coal used, and find up to this date that I have used ten and a quarter tons less than in the same length of time last year. Signed,

C. KNOWLTON, Eng'r in charge Heating Apparatus of Macullar, Williams, & Parker.

E. D. SPEAR, M.D.,

THE OLD INDIAN DOCTOR,

SO MUCH CELEBRATED FOR HIS REMARKABLE CURES.

Office, 713 Washington Street, - - - BOSTON.

THE medical record of Dr. E. D. SPEAR, as a successful physician in the treatment of chronic diseases, is without parallel. Many are suffered to die who might be saved. Dr. Spear makes a direct appeal to the substantial, intelligent, and cultivated citizens of our country, and asks that his claims as a physician of extraordinary powers may be investigated. If you are beyond human aid, Dr. Spear will not deceive you. If you have ONE CHANCE, he will save you. Come to his office, and consult him, free. If you cannot visit him, consult him by letter.

STATEMENT OF WM. B. TRASK, ESQ.

DORCHESTER, Nov. 22, 1865.

DR. E. D. SPEAR. Dear Sir, — I have long been desirous of expressing in writing my grateful appreciation of your kind and beneficial service to me when an invalid. I went to you, an entire stranger, on the 28th of August, 1856, — more than nine years ago, — about as weak in body as one could be, and walk. I had become thus reduced by a long and close application to a business unsuited to my condition. My blood being in a bad state, an irregularity of circulation was produced, and a derangement of the vital organs, which would probably have soon terminated fatally, had there not been an immediate application of the proper remedies. Your excellent medicines and timely advice soon produced a change, slowly but surely, renovating the whole system.

By continued perseverance in following out your judicious directions, I owe, under Providence, my restoration to what my friends and myself consider a good degree and permanency of health. I would therefore cordially recommend to those who are afflicted a fair trial of what I consider your superior medical treatment. With sincere regards, I am, yours truly,

WM. B. TRASK.

Words will not suffice in this case to describe the remarkable effects of the Doctor's treatment.

Mr. DOE previous to treatment.

From a Photograph of Mr. Doe, taken April 9, 1869.

For the benefit of the sick, I wish to make a statement of my case. I had been gradually failing in my health for some time, when I was taken with severe bleeding. My cough grew troublesome. I raised very bad matter from deep down in the lungs. The bleeding returned upon me frequently. In January, 1868, having had an alarming fit of bleeding, I thought, unless I soon got relief, my days would be few. My hope was about gone. Seeing Dr. SPEAR'S card in the papers, I was reminded of several remarkable cures of his which had come under my notice. I concluded if he could not cure me, no one could. — I would make the trial. I immediately put myself under the Doctor's treatment, and, wonderful as it may appear in such an extreme case, not a week passed before I felt the good effects of his medicine, and in two months the change in me seemed miraculous. It has now been a year and a half, and I have taken a new lease of life. The Doctor tells me there is no reason why I may not live many years. The pen cannot convey the remarkable change in me. I have therefore furnished Dr. Spear with my photographs, — one taken before consulting him, the other taken the 9th of April, 1869. I know there is a strong feeling among some against a physician who advertises; but if there is one thing better than another, or one physician who is more likely to cure us than another, why not let the people know it? Dr. SPEAR cured me when I was seemingly beyond hope, and I wish to tell everybody about it.

BOSTON, July, 1869. CHARLES O. DOE.

BOSTON, Sept. 10, 1870.

DR. SPEAR. — Dear Sir: My weight is now 183 pounds, the highest figure I have ever weighed.

CHARLES O. DOE.

DR. SPEAR can be consulted at his office, 713 Washington Street, Boston, or by letter, with stamp, free of charge, upon ALL diseases.

Those who have failed to be cured by other Physicians are especially invited to call on Dr. Spear.

Exclusive attention to OFFICE MEDICAL PRACTICE, and the Teaching of his Original Method of Promoting to an Extraordinary Degree, Health, Strength, and Development.

OFFICE AND GYMNASIUM,

Open from 8 1-2 A.M. to 7 P.M.

Graduated Yoke-Lifting—the most strengthening and health-promoting of all exercises—is practised in no other establishment in this city. It is a process which brings into harmonious action at one effort upwards of four hundred muscles; arousing every dormant function of the body, and imparting cheerfulness to the mind. It enables business men, whose time is precious, to get most of the needed exercise of a day in a few moments. It is a safe and reliable means of making the weak strong, and the strong Herculean; **doubling the strength in three months, and trebling it in a year.** As strength is the correlative of health, the importance of such a result in a hygienic point of view, is beyond question. It is an invaluable aid to medicine in the treatment of asthma, dyspepsia, obesity, pulmonary disease (first stage) chronic rheumatism, neuralgia, torpor of liver and bowels, and "general debility." HANDLE-LIFTING, (three kinds—Dead Weight, Lever, and Spring,) HAND-SHOVING or CHEST-EXPANDING, FOOT-SHOVING or LEG-DEVELOPING, ROWING, and all other essential exercises of a regular Gymnasium are also practised by DR. WINDSHIP'S patients and pupils.

☞ Patent GYMNASTIC APPARATUS constantly for sale, including "The Practical Graduating Dumb-bell," adjustable in a moment to any half-pound graduation of a regular series between 8 pounds and 101; "The Atmospheric Lifter," very compact and portable, and providing for either handle or yoke-lifting; and "The Complete Developer," or *Concentrated Gymnasium.* This last contrivance occupies a space of only 8 feet by 4, involves in its use yoke-lifting, handle-lifting, hand-shoving, foot-shoving, and rowing, and would prove especially useful in any Medical Office, Hospital, or Academy.

ASHTON'S PATENT

Insulated Lock Safety Valve.

Adopted by U. S. Board of Supervising Inspectors of Steamboats, at the Annual Meeting held at Washington, D. C., in 1872.

The undersigned are sole Manufacturers of

ASHTON'S LOCK SAFETY VALVES.

Perfect Security against Boiler Explosions, whether Steamboat, Locomotive, or Stationary.

The great advantage of the use of this valve is, that it perfectly relieves the Boiler of over-pressure of Steam at the exact point at which it is set. in spite of the attempts of the fireman to get more steam than the owner, chief engineer in charge, or inspector shall determine, the key being kept by one of the above three. It is sensitive in action, and always perfectly reliable, and will fully recommend itself to any practical mechanic or the public, who are constantly being shocked by the horrors of "BOILER EXPLOSIONS."

As will be seen by the above sketch, the valve is so arranged that no tampering or excess of pressure can be obtained. At the given pressure, the valve "WILL RISE," and cannot be stopped blowing until the pressure of steam in the boiler is diminished, when it will "CLOSE ITSELF" at the pressure at which it opened — this is a point at which other valves have failed. Thus the Boiler is completely under control of the valve. A lever is also arranged as an extra precaution, to enable the engineer to raise or try the valve, to fully satisfy himself it is in perfect order, at the same time giving no opportunity to prop up or tamper with it to obtain more pressure.

The valve, when raised off its seat by excess of pressure, slides up a very nicely-fitted brass cylinder and guard, inside of which is the spring with all connections, thus preventing any possible means of being tampered with by "ANY ONE."

The spring and all working parts being quite insulated and completely inclosed in the cylinder, cannot be effected by the steam or other elements.

The above sketch represents a Valve for stationary and steamboat boilers, in the nozzle of which a pipe is screwed to conduct the steam outside of the building, and prevent its blowing about the boiler-room. Others are made for locomotives and all outdoor engines, with same internal arrangements, but with slot-holes in outside case.

In ordering the Insulated Valve, please state the size of boiler and working-pressure of steam.

BUERK'S

Watchman's Time Detector.

THIS **WATCH-CLOCK** was introduced to the public in almost every section of the United States and Canadas, about ten years ago; and it has proved itself to be the best invention in the world for testing the faithfulness of Watchmen. Since its introduction, the Proprietor has improved on some parts, and corrected deficiencies which have been suggested by using it; and he has now a perfect check upon the Watchman. With other clocks, a regular routine has to be followed; but with this, a Watchman can be ordered to visit any particular place as often as required, without being compelled to go to places where it is not necessary to visit as often.

The instrument is complete in itself, portable, and as reliable as the best lever watch.

It is not so likely to become disarranged in its works as a good watch, because its parts are stronger; but, when it needs cleaning, any common watchmaker can adjust it, its mechanism being simple.

It requires no fixtures or wires communicating from room to room, as is the case with the ordinary Watch-Clocks: a small, inexpensive, stationary key is alone required at each station.

Its use is not restricted to a single building; and places can be guarded that it would be impossible to guard with any other instrument, such as Railroad Tunnels, Bridges, Yards, Shops, &c.

The instrument will, in all cases, be warranted perfect and satisfactory. Its price is invariably

Seventy-Five Dollars, Cash on Delivery,

Including as many Keys as are requisite, not exceeding twelve.

This Watch-Clock is sold at a less price than any other in the market.

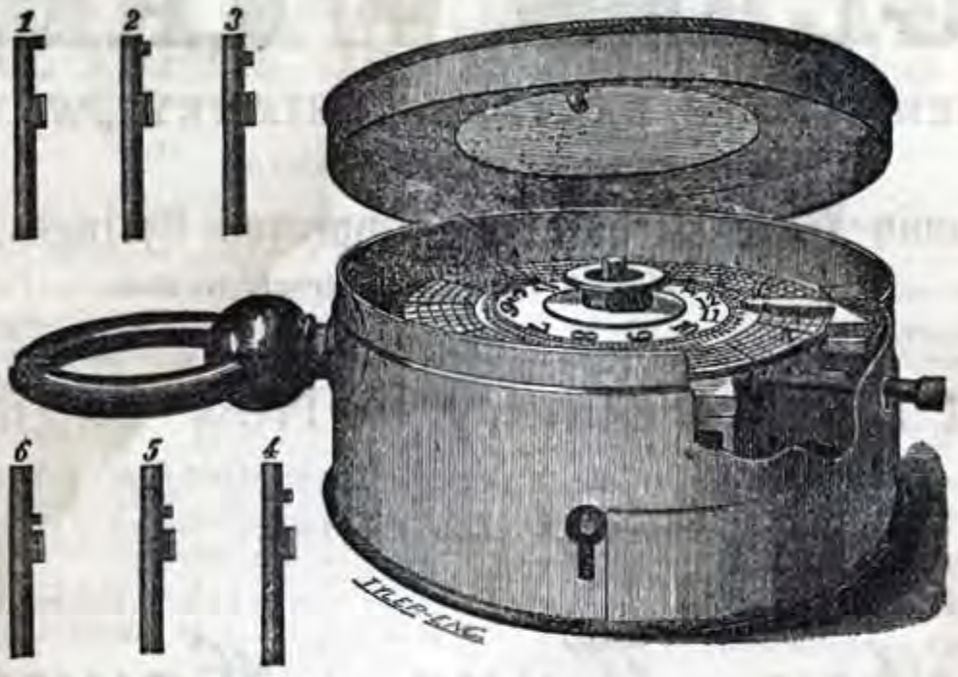
The DETECTOR is used extensively by large Manufacturing Establishments and Railroad Companies in the United States, from whom numerous testimonials have been received.

N. B. — Parties purchasing these Clocks should test them sufficiently in the counting-room or office, as they will not be taken back after having been injured by the Watchman through carelessness.

All communications promptly attended to.

ADDRESS:

J. E. BUERK, Proprietor,



47 CONGRESS STREET, BOSTON.

P. O. BOX, No. 1057.

N. B. — It is very essential to carry the clock secure, taking care that it is not brought in contact with any hard substance, and thereby broken. I have on hand POUCHES, with Straps to go over the shoulder and around the body, which I will send with the Clock, if ordered. Price, $2.50.

This DETECTOR is covered by two U. S. Patents. Parties using or selling these instruments without authority from me will be dealt with according to law.

Buerk's Watchman's Time Detector.

All large corporations or manufacturing concerns employ Watchmen, who look to the safety of the several buildings, and are expected to be vigilant in guarding the interests committed to their charge. Property of immense value is thus at the mercy, so to speak, of one man; for, if he is neglectful of his duty, he is not only dishonest, but jeopardizes the daily bread of numberless persons who may have funds invested in the concern.

To hire one Watchman to look after the other would not be a very wise proceeding; for, by collusion, they might set at naught all such precautions. Recourse is therefore had to machinery, — silent, insensate wheels and springs. By the judicious combination of these, tales can be told which result in the dismissal of the untrustworthy servant, or his retention and reward if found worthy.

The above engraving is a view of a Time Detector, which is carried about by the watchman to all the different stations to be guarded. At each station is a small key, securely fastened to prevent his taking it with him. The watchman goes from station to station, takes the key fastened there, inserts it into the clock, gives it one turn, and goes on to the next, or to any other station, for he is not bound to go in regular order. By this, it follows that a perfect record will be kept of each operation.

The broken-out portion of the watch shows the mechanism which operates the pin which pricks the paper. At A, there is a number of sliding bars which connect with the pricking points, so that, by turning round the key, the ward on it strikes a certain bar, and penetrates the dial paper B. By that act, a small hole is made in the paper, which tells what time the man appeared at each station; how often he came there; how long he stopped; how long it took him to go from one to another; whether he went in regular order or not; in short, it gives a complete record of his night's work.

The small figures are views of different keys. A flange on the side of the key prevents it from being turned unless it is inserted quite into its place; so that the key used for one station cannot be used to make a mark for a key at another, nor, indeed, can any key except a perfect duplicate be made to do it. Any attempt on the part of the watchman to evade his duty by counterfeiting keys may be effectually baffled by occasionally changing keys from one station to another. An indefinite number of stations can be served.

The watch is wound, set, and closed each evening by the proprietor or superintendent, and the box locked with a key which he keeps, so that the register within is unseen by, and out of the reach of, the watchman who carries it. In the morning, when the Detector is returned to the superintendent, the graduated disk of paper may be removed from its position, and filed, like a telegraph despatch, as a permanent record, while a new disk is applied for succeeding records.

BURR'S PATENT NURSING BOTTLE.

The most Perfect and Convenient Nursing Bottle in the World.

The public are cautioned against any imitations or infringements of the above patents, and to guard against *worthless imitations* see that "M. S. Burr's Pat. Aug. 27, 1867," is stamped on the mouth-guard, and that the words "Burr's Patent Nursing Bottle," are blown in the Glass Bottle.

As an evidence of the *fact* that I use the *purest* and *best* materials in manufacturing my NURSING BOTTLES, please read Prof. Hayes' analysis of the WHITE RUBBER NIPPLES AND TUBING made expressly for me. He says:—

"I have analyzed the White Rubber Tubing and Nipples manufactured for Burr's Patent Nursing Bottles, and find that they are entirely harmless when taken into the mouth, or used in connection with these bottles. These tubes and nipples do *not* contain *lead*, and it is *impossible* to extract any injurious substance from them by any ordinary usage.

TESTIMONIALS.

From Messrs. GUILD & DELANO, Jewellers, 2 Winter Street, Boston.

We have used the BONE POLISH, and from our experience should think it one of the best articles in the market for general use, and adapted to a wider range of uses than any other polishing material we know of. Its fine grain gives a high polish upon metals, while upon glass it leaves a brilliant lustre.

From Messrs. HENDRICKSON, DOLL, & RICHARDS, Dealers in Looking-Glasses, &c., 28 Summer St., Boston.

We have used the BONE POLISH for Cleaning Glass for Silvering, and have always found it very satisfactory. Can cheerfully recommend it.

From Mr. ASA RICE, in charge of Boston and New York Sleeping Cars.

I have used more than one hundred boxes of your celebrated BONE POLISH, and can recommend it in the highest for every thing you advertise it for. I have used a great many different kinds of Polish: the Bone Polish excels all others.

From Mr. B. W. HOBART, Station Agent, Boston and Albany Railroad,

The celebrated BONE POLISH has long been used in cleansing the Car Windows, Mirrors, Silver-Plated Trimmings, &c., on the Boston and Albany Railroad, and is an excellent and unequalled article for the purpose.

[It is also excellent for Locomotive Reflectors.]

Having sold "The Celebrated BONE POLISH" to our customers, we certify to its satisfactory and superior qualities as a Polish for Metals, Glass, &c., and we regard it as unequalled in its line of utility.

HOVEY'S
ELIXIR OF CALISAYA.

This elegant preparation is offered as one well adapted to meet the wants of all those who require a tonic and cordial medicine.

It is prepared from the best variety of the "Peruvian Bark" known as "Calisaya Bark," the bitter taste of which, in this Elixir, is covered, while its efficiency is enhanced by the aromatics with which it is combined.

It will commend itself to favor by its valuable tonic and invigorating action; while its delicate flavor will please even the most fastidious.

In all diseases arising from a want of tone or vigor in the digestive organs, such as loss of appetite, dyspepsia, &c., its use will be attended with marked advantage; and in climates where Fever and Ague, and maladies caused by malaria are prevalent, it will be found a most valuable medicine.

As a general tonic it is highly recommended.

Price $1.00. Six Bottles for $5.00.

Patent Papered Wood Hangings.

THEY CAN BE WASHED.

Their rich colors and steady, perceptible improvement with age; steam or furnace heat, dampness, or frost having no effect upon them. The protection and strength they give to the plastered walls favorably impress every one with the economy and desirability of this artistic mode of decoration. Halls, Libraries, Vestibules, Reception, Dining, and Bath Rooms, Chambers, Kitchens, and Closets, &c., are constantly being finished in the most costly houses. Closets finished in Red Cedar; Pantries, in White Wood; China Closets, in Ash or Maple. Elegant

WAINSCOTING OR DADOING,

With the Choicest Varieties of Woods, native and foreign.

PINE DOORS, PIANOS, ORGANS, COUNTERS, BASE-BOARDS, WELL-ROOMS, veneered with this Patent Papered Wood Hangings, give the most perfect satisfaction, heat and dampness having no effect, and being more easily applied.

Architects and Builders generally are rapidly introducing them, and conforming their plans to this mode of decoration.

TESTIMONIALS.

BOSTON, Dec. 24, 1871.

It is with the greatest pleasure we acknowledge the solid and elegant effect produced by your Patent Papered Wood Hangings in the halls, dining rooms, and vestibules of "The St. Cloud Hotel." In the construction of this building, we have, as trustees, studied the most rigid economy consistent with durability; and it being within our own knowledge, that for the past three years your woods had remained wholly unaffected by steam, furnace-heat, and dampness, we had no hesitation in using them almost exclusively in the interior decoration. We heartily congratulate you upon the success with which you are meeting.

Very truly, GEORGE B. BIGELOW, for Trustees of Buffington Estate.

BOSTON, Nov. 16, 1871.

Since the first introduction of your Patent Papered Wood Hangings, we have had you apply over sixteen (16,000) feet of Dado in Black Walnut, White Wood, Butternut, and Oak. We have also used your Cedar and White Wood Hangings for Closets, Pantries, and Bath Rooms. Your work has proved to be unaffected by dampness, steam, or furnace-heat, and while the cost is far below solid wood, you are enabled to give us the choicest varieties. The work you have just finished for us exceeds in elegance of woods and workmanship all your former efforts. Accept our congratulations in your present success, which must rapidly increase with a general appreciation of the elegance and durability of this mode of decoration.

Yours very truly, &c.,

A NEW STOVE

ON A NEW AND MODEL PLAN.

CHILSON'S

CONE-DISK STOVE.

This is a plan for a Stove that has long been wanted for *greatly economizing in the consumption of fuel* in warming offices, stores, workshops, railroad cars, factories, &c. It has been got up after a long and careful study, expressly for economy in fuel and for warming the air in the lower part of the room, as well as the floor, for a great distance around the Stove, instead of its ascending to the upper part of the room, as is the case with the common Stoves, and for keeping a continuous fire day and night. When once seen in operation, it will convince every one of its great superiority. It is very simple to manage, and is made in the most substantial and durable manner, wholly of cast iron, of a new and beautiful design. Sizes suitable for rooms from 15 feet to 100 feet square.

ALSO A NEW OVALED

PARLOR STOVE,

of a new and beautiful design. Also several sizes of

CHILSON'S NEW

COOKING STOVE,

Which has been declared to be the most perfect Cooking Stove in the world. A single examination will prove all that is claimed for it.

DAMPER AND VENTILATOR.

CHILSON'S

VERTICAL SECTION OF DAMPER AND VENTILATOR.

Arranged so as to be attached to the Smoke Pipes of Furnaces, Ranges, Stoves, &c., as well as Steam Boilers, Brick Chimneys, &c., for the purpose of regulating their Fire Draughts, and also for Ventilation. Its operation will surprise all who witness it *in the great length of time fire may be kept without replenishing with fuel, and in the wonderful economy in the consumption of fuel.* Descriptive circulars of the above sent to any address.
